But, seriously, the scheme of working the prisoners appears to be working very successfully. The kind of employment given them will be that which will not interfere with the unions, and there will be some profit in it for the city, aside from the discouragement which it will afford for the professional hoboes to get into juil for their "feed," which is an important item. After the rough work about the city building is completed the gang will be sent to City Creek canyon to break rock for ma cadamizing the outlying streets.

#### OVERCOATS AT THE FAIR.

St. Louis Has Spells of Klondike Climate.

"Overcoats in St. Louis during August doesn't sound right, does it?" said T. E. Davis at the Kenyon yesterday. Mr. Davis is conducting a party of excursionists who started from Philadelphia and want to see the wonders of the Yellowstone after going over the exposition.

"No, sir." said he, "overcoats in St. Louis in the good old summer time sounds funny. But nevertheless some of our party wore them one morning re-cently. They are having wonderful weather at the big exposition. And the Weather at the big exposition. And the Missouri city is losing its reputation as a heat center in consequence. Several mornings the temperature has hovered around the 50-deg. point until the sun was well up. It was during one of these mornings some of the men of the par-ty rooted out their top coats and the

ladies hunted up jackets.
"Two been unusually lucky during past years in bringing tourist parties to St Louis and striking cool weather, but this passed the record. And the St. Louis people are to be commended, too, for they are busy telling everyone that this is the usual thing. They frankly acknowledge that it gets hot once in a while, and that the weather man is, as it were, laying himself out to give the expo. visitors an especially good brand of climate during their stay

#### Prof. Ap Madoc's Movements.

Prof. William Ap Madoc, the noted Welsh musician of Chicago, will arrive in Ogden on Tuesday next from Colum-bus Junction, Ia., where he has been conducting the musical features of the Chautauqua, and will proceed at once to Malad, Ida., where he is billed to ap-pear August 19. It is thought that a number of the professor's Salt Lake friends will accompany him on his northern trip. If time will permit Mr. Ap Madoc may give a concert in the Sixteenth ward assembly hall of this city on his return from Idaho. Announcement of this, however, will be made later.

THIS WONDERFUL,

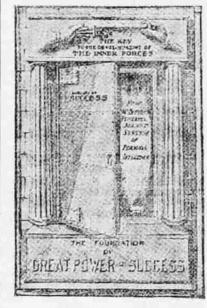

# MYSTERIOUS

Reveals Startling Secrets Jealously Guarded for Ages by Adepts.

Explains the Workings of a Strange Force That Has Been Overlooked by Scientists for Centuries Past.

Tells How Men and Women May Cure Disease as if by Magic, and Wield a Powerful Influence Over the Minds and Lives of Others. Why Some Succeed and Others Fail.

Peculiar Arrangement by Which 100,-000 Copies Are to Be Given Away by Mail-Absolutely Free.

A room filled with copies of a strange and mysterious book, the like of which has never been fed to the eyes of the public, is on exhibition at an institution in New York city. Scientists and physicians have read copies of it with amazement, speculation is rife among masters of occult science as to who wrote it, many contend that no mind of this age could divige the carefully guarded secrets of the wise oid sages and adepts in such simple language.

Prof. Frederick T. McIntyre, who claims authorship of the work offers to send a copy free to any person who will, in his own handwriting, send the following odd lines to him:—

"I want power of mind,

"I want power of mind,
Force and strength in look,

are, what to do to get well quickly listick weak, run flown, physically or mentally, and whether the writer will succeed in using to advantage the many poworful secret systems of personal influence outlined in the book. He does not wish to send it to any person who would use the system of personal control for any other than an honorable purpose. Like Andrew Carnegle, he believes in the distribution of good books. No book in this age of scientific progress has created such a well merited furore of interest.

This book is full of startling surprises and many pictures, showing how one mind controls another; it explains how the strange phenomena of developing Fersonal Magnetism, Hypnotic Influence, Magic Curing of Diseases, Reading Characters and Minds, Projecting thoughts to distant places are accomplished; it gives you the key to the development of the Inner Forces, concentration, force of character, memory, and powerful systems of swaying the minds of others; how to overcome the most obstinate disease or habit through an inward, subjective power, of the Hindus banish disease and despondency at will.

It is by far the most wonderful book of the age, and all who receive free copies of it can be thankful. It points out the road to financial and social success; it reveals many mysterious phenomena that have baffied scientists for centuries past.

If you wish a free copy of this wonderful book, sit down and write the above verse and send it to Prof. F. T. McIntyre, Dept. 25. No. 12. West Thirty-fourth street, New York, N. Y.

All who write will receive it no one will be disappointed, it is sent by mall, postage paid, absolutely free.
